In fact, both the Prius and the upcoming Camry share the same platform on which they are built. Even if the Prius has an electric motor, most of the work will still be done by the gasoline engine.

Toyota Delivering Prius | Financial Tribune

Toyota Motor Co., the world's largest automaker, has been producing cars for more than 70 years. It wasn't until after World War II, however, that production started to pick up. Toyota went from making 8,500 cars a year in 1955 to 600,000 in 1965. Models like the Toyopet and Land Cruiser hit the United States in 1957. Today Toyota is among the leaders when it comes to hybrid technology.
