Cases Morphology And Function Russian

Russian case morphology and the syntactic categories David Pesetsky (MIT)1 1. Introduction • Case morphology: Russian nouns, adjectives, numerals and demonstratives bear case suffixes. The shape of a given case suffix is determined by two factors: 1. its morphological environment (properties of the stem to which the suffix

Russian case morphology and the syntactic categories David ...

Each Russian case has its own purpose and answers a particular set of questions. One of the reasons that cases are so important in the Russian language is the flexibility of the Russian sentence word order. As sentences can be put together in so many ways, cases help distinguish the sentence's subject from its object.

Cases Morphology And Function Russian Grammar For Beginners

"Case" is a linguistics term regarding a manner of categorizing nouns, pronouns, adjectives, participles, and numerals according to their traditionally corresponding grammatical functions within a given phrase, clause, or sentence. In some languages, nouns, pronouns, adjectives, determiners, participles, prepositions, numerals, articles and their modifiers take different inflected forms ...

Grammatical case - Wikipedia

Russian grammar employs an Indo-European inflexional structure, with considerable adaptation.. Russian has a highly inflectional morphology, particularly in nominals (nouns, pronouns, adjectives and numerals). Russian literary syntax is a combination of a Church Slavonic heritage, a variety of loaned and adopted constructs, and a standardized vernacular foundation.

Russian grammar - Wikipedia

A proposal for a radical new view of case morphology, supported by a detailed investigation of some of the thorniest topics in Russian grammar. In this book, David Pesetsky argues that the peculiarities of Russian

nominal phrases provide significant clues concerning the syntactic side of morphological case. Pesetsky argues against the traditional view that case categories such as nominative or ...

Review of David Pesetsky's Russian case morphology and the syntactic categories

(PDF) Review of David Pesetsky's Russian case morphology ...

Case is a feature that expresses a syntactic and/or semantic function of the element that carries the particular case value. Most cases which express a syntactic function are also associated with a semantic function (e.g. of an agent, an experiencer, an undergoer) for particular classes of predicates in the given language.
