Unlike Project Gutenberg, which gives all books equal billing, books on Amazon Cheap Reads are organized by rating to help the cream rise to the surface. However, five stars aren't necessarily a guarantee of quality; many books only have one or two reviews, and some authors are known to rope in friends and family to leave positive feedback.

Mississippi Science Test Grade 8

Students in a science class conducted an investigation using a prism. The students reported the following observation. White light goes into the prism on the left side and comes out on the right side of the prism as seven different colors. The drawing shows their observations and the wavelength of each color of light. Indigo: 440 nm Colors of ...
