The "mise-en-scène", along with the cinematography and editing of a film, influence the verisimilitude or believability of a film in the eyes of its viewers. The various elements of design help express a film's vision by generating a sense of time and space, as well as setting a mood, and sometimes suggesting a character's state of mind. [5] "

## **Introduction to Filmmaking for Beginners**

This comprehensive introduction to the film industry focuses on three topics: how movies express meanings, how viewers understand those meanings, and how cinema functions globally as both an art and a business. This is the only introductory film text to examine the elements of film style and the viewer's contribution to the cinema experience.
