This centrally important privileging of TNCs, in combination with corresponding international and national failures to regulate corporate activity, produces the 'governance gap' that forms a key critical concept in the authors' argument. This, the author's analysis suggests, is a gap requiring an urgent response.

Abstract. In The Governance Gap: Extractive industries, human rights, and the home state advantage, Canadian law scholars Penelope Simons and Audrey Macklin argue that there is a "governance gap" with respect to the prevention of, and accountability for, direct or indirect corporate human rights abuses in host states and the provision of redress to victims of such abuses.

Extractive industries claim to bring considerable benefits to a host state and are usually located there for very long periods. Yet some of these states have weak governance and will not or cannot protect against human rights violations. This seminar explores the governance gap with respect to the potential human rights impacts of transnational extractive corporations operating in weak governance zones.
